Dear Mr. [REDACTED]:

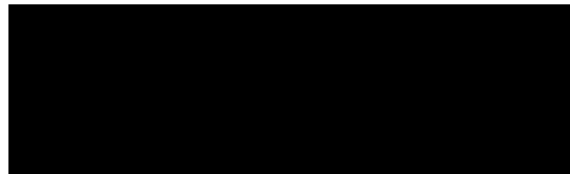

Your letter of 24 August 1953 requesting advice on the form of vouchers has been received.

As previously indicated, subject to changes in short order upon notification to us to the contrary, the voucher previously submitted was acceptable to all concerned. A further check reveals that the voucher has been forwarded to the Treasury Department for payment.

The detailed breakdown is not required at each billing, but should be used by you as a schedule of estimates in approving payments as based upon the proportionate amount of work done under each trade during the month for which the billing is submitted.

Vouchers are to be receipted by the Contractor at the time of submission.

Very truly yours,

25X1A9a
